

New Jersey Association for Institutional Research:

Drive-In Workshop 2009

“PivotTables Changed My Life – They Can Change Yours, Too!”

Presented By:

Dr. Paula Maas, The College of New Jersey

Participants will employ typical institutional data from a student information system and an online survey with PivotTables and PivotCharts in Excel 2007 to subtotal, aggregate, and summarize data by category and sub-category. Suggestions for presenting data and sharing interactive PivotTables and PivotCharts with the campus community will be discussed.

Free Only to NJAIR Members!!

The New Jersey Association for Institutional Research is pleased to announce that it will be offering a free morning workshop to our membership. The seats in this workshop are limited to the first 20 NJAIR members to register. So don't wait long to register.

Feel free to bring your own dataset(s) from your institution.

Learn to subtotal, aggregate, and summarize your own datasets, in this enlightening, hands-on workshop.
